

J. Scott Hercik, Transportation and Trade Advisor, Appalachian Regional Commission

J. Scott Hercik is a transportation and international trade advisor to the Appalachian Regional Commission (ARC), an economic development partnership between the federal government and thirteen states, ranging from New York southwestward to Mississippi. Scott works closely with both public and private sector interests, with a special focus on the intermodal global supply chain and the economic and employment opportunities that are being shaped by the global economy of the 21st century.

Prior to joining ARC, Scott served as a Senior Director for Planning and Development at Amtrak for eight years and held a variety of planning, programming, and administrative positions during nineteen years at the Michigan Department of Transportation. He is an expert in rail freight and passenger programs, works closely with inland navigation and global maritime issues, and has an extensive aviation background, earning his F.A.A. pilots license at the age of sixteen. He is a transportation consultant and lecturer to the Smithsonian Institution and has led a series of international trade and transportation delegations to Europe, Latin America, and Asia. Scott is a member of both the American Association of State Highway and Transportation Officials and the Transportation Research Board of the National Academy of Science. He also works closely with a number academic institutions involved in economic development, international trade, and transportation including Marshall University, Virginia Tech, the University of Alabama, and the University of Tennessee.

Scott is an honors graduate of Michigan State University and resides with his family in Northern Virginia.
